

Maths

In maths we will consolidate our work on written methods for addition, subtraction, multiplication and division, and we will be finding out about different types of fractions and decimals. We will also continue our ongoing work on learning times tables.

Geography Project Overview

During this coming half term, our project will be based on the study of the planet Earth. We will find out all about the key elements of the world we live in and we will investigate ways in which the world is constantly changing. We will particularly focus on trees, forests and oceans and the steps we can take to prevent damage to our planet.

English

Our focus in English will initially be on non-fiction writing about our project research. Later in the term we will look at narratives alongside our class book *The Lion The Witch and The Wardrobe*.

PE

This term we will be looking at invasion games and developing skills in hockey and tag rugby.

RE This term we will be finding more about Hinduism. We will focus on representations of gods and their connection to creation, preservation and death. We will also focus on what it is like to be a Hindu in Britain today.

PSHE

In PSHE we will be looking at money choices, volunteering and citizenship.

Spanish

In Spanish we will continue our work on classroom objects and we will then move on to naming and describing animals.

Art

This term we will be looking at using mixed media to create paintings. We will also focus on how light and shadow is used in drawing and painting.

Global Learning Focus

SDG 8 Decent Work and Economic Growth

Music

In music we will be looking at different types of rap songs. We will look at how songs are structured and how different rhythms are used. We will continue to work with glockenspiels to play, compose and improvise tunes.

Computing

In computing we will look at different ways of editing photos and using a variety of editing tools.

Science

In Science we will be looking at states of matter. We will be finding out about different materials and their properties and we will carry out investigations into solids, liquids and gases.
